Give Emotions is an original and proud concept of gift/souvenir that stimulates the communication of emotions by representing the traditional Portuguese can industry, promoting art and having a strong sense social responsibility. **What does your business hope to achieve through Connect to Success's Corporate Mentoring Program?**

Give Emotions has a world of communications to discover and a vision to encounter. We know we want success, for that we need an experience guidance on sales, branding and financial matters. We may need more but we don't know yet. We are ever so willing to share this emotional adventure with our mentor - Microsoft.
